IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:
"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.
I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 19, 1849 Philadelphia."
I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass, or at such other place as may be convenient for such a trial.

JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works having the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

The American Cough Candy.
WE know of nothing in the annals of medicine which has achieved, within the same space of time, so just and general a reputation, as the above invaluable Cough Remedy. Testimonials of its wonderful efficacy in curing the most inveterate cold continue to flow in upon us. We are assured that where ever used it is superceding all other remedies of the kind. Grevious to relate, the Nightingale had the tested its virtue, probably never would have taken to herself a Goldschmidt. She having taken that melancholy step, from the fear that her voice was gone forever; having experienced only temporary relief from the Remedy last taken.
Why is the American Cough Candy like a Black Cloud? Because it goes ahead of Storms.

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of a cession. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2600 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

PROPRIETORS.
UNDER THE NAME AND FIRM OF
RUFUS KING & CO.

FROM OUR N. YORK CORRESPONDENT.

New York, Monday, April 12, 1852.

Connecticut has just pronounced against *the Maine Law*—and the Legislature of this State have rejected a like bill, by a vote (in the Assembly) of 45 for the law, to 69 against it. I cannot believe that eventual good to the cause of Temperance in the use of liquor, is to be otherwise than hazarded by these attempts, and the failure of success, to compel people by law—not to temperance—which is reasonable use—but to abstinence, in regard to intoxicating drinks. Moral qualities and moral conduct must be the growth of conviction—not of prohibition and penalties—and with the keenest sense of the evils of intemperance, and of its wasteful excesses in our country—I cannot bring myself to look upon the earnest, but, as I view them, mistaken *efforts*, of so many good people in different States, to punish what God permits and society sanctions, other than as injurious and unjustifiable meddling with personal rights and individual responsibility. There cannot be two opinions about the wrongs, both to family and society, which intemperance produces, but of any remedy for these wrongs, other than such as fear of God, love of home, and respect of self can supply, I despair—that the mingling of such a question with politics can ever be beneficial either to politics, or temperance—I certainly do not believe, and therefore regret very much that it is attempted.

Have you chanced to remark the movements in Albany for the establishment there of an efficient University, in which a corps of men, eminent in their respective walks of science and letters, should deliver Courses of Lectures, as is done in European cities? It is a grand idea, and it is called for by the needs of the country. We have not now, any where in the United States, the means of pursuing literary and scientific studies under competent teachers, after the close of the Collegiate term; and that term, owing to the pressure upon our youth of the calls of busy life, is reached by very few, comparatively; and by those few, at years so immature, as in older countries would hardly rate them above the category of upper school boys. We need somewhere, a corps of instructors, capable of carrying on much further, the elementary knowledge—it seldom is much more—acquired at College. Now, those who feel the want, and can compass the means of supplying it, after leaving College go to Europe, and in the schools of Edinburg, Paris, Gottenberg, Bonn, Berlin, and elsewhere, seek the accomplishments which they cannot find at home. The City of Albany is moving earnestly in a direction to repair this defect. I do not think Albany the right place; indeed, such a University—to have all proper means and appliances, and an adequate attendance of pupils—should, in my judgment, be in a great city, like New York or Philadelphia—but even in Albany, if such an institution can gain footing, it will disseminate large benefits. I understand that Professors Agasseiz, Guyot, Pierce, and men of kindred eminence, have expressed their readiness to associate as teachers and lecturers in such a University. Very liberal subscriptions are understood to have been made, or to be obtainable in Albany, for assuring the requisite compensation to these teachers, and the halls and apparatus necessary to their lectures—for a part of the scheme is, that the lectures, as in Paris, are to be free. Upon this great scheme, our friend, Mr. Ruggles, proposed to engraft a school of the chosen boys from each Assembly District—in this wise—that 120 boys should be educated at the expense of the State; (after the manner of West Point) that is, supported, clothed, and educated—during the term of instruction—say three years—that these boys should be selected by the school officers, or other competent judges in each Assembly District, after open examination, and upon competition with any boys offering from that district for the scholarship. This would ensure both capacity and moral character—for both should be required—and the State should not *educate*, at the public cost, either blockheads, drones, or evil-doers. Think only what an impetus would be given throughout this whole State, by an annual competition in some portion of its Assembly Districts, among all the clever boys of the district, for this scholarship. One only, indeed, could succeed, but how many in the very preparation for the contest, will acquire habits of study, and an extent and variety of information, which will render them most valuable citizens? This great result of educating 120 of the choice boys of the State, could be effected for an annual expenditure of $30,000—while more than *one million* annually are now expended on our Common Schools. With such an elementary school, and a Board of such Professors as now can be had, Education will have made a start in our State, which will place her intellectually and morally, as she is now numerically and politically, at the head of the Union. Persuaded that no one other interest appeals more strongly than this—so strongly as this—to the popular feeling and general welfare—I hope for its success, as I do for every well regulated and well considered enterprize of Education. In Wisconsin, you have in your reserved public lands, a general fund upon which to build up Schools and Universities—they will be found the worst enemies of the People, now and in the future, who shall waste or depreciate this fund.

From Madison.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

Madison, April 15, 1852.

I enclose a partial list of the acts originating in the Assembly, which have received the signature of the Governor.

My last letter was closed while the apportionment bill was under consideration in the Assembly. It seems now that it is not the House substitute to the Senate's bill, which has so strangely come up missing, but the Senate bill itself; and this being the base of the action of the Assembly and being lost, the whole might have been as well taken. A strenuous effort was made to put the bill through under the whip and spur of the previous question; but it failed, except so far as to put the bill forward to a third reading. Two-thirds could not be found to suspend the rule which forbids bills to receive three readings on one day, and the bill came over to this morning. The delegations from Walworth and Rock, appear to be dissatisfied with the arrangement of their towns and oppose the bill, except Mr. Hackett.—This morning, a reconsideration of the vote ordering the bill to a 3d reading was made. Amendments were offered by gentlemen from the counties mentioned and others. The counties of Rock, Walworth, and Dane were re-arranged, the number of members of Assembly in all being left at 77, as in the original bill. In this form the bill passes by ayes 40, noes 20.

The bill appropriating some $7000 for paying the indebtedness of the State Prison passed the House this morning. It is one of the items which, coming over from last year, go to make up the large amount of arrearages which this Legislature has to provide for.

A bill which proposed to repeal the amendments to chapter 112 Revised Statutes, which provide for traversing attachment affidavits, elicited considerable discussion, Messrs. Shafter and Cate advocating its passage, and Messrs. Botkin and Sholes opposing. It was lost by a small majority.

The Senate sent in during the morning a large batch of bills which had passed that body, and among them the Bank Law.

On assembling in the afternoon, the House passed the bill taxing hawkers and pedlers of articles not produced or manufactured in this state, and then took up the General Banking Law. The following are the material amendments acted on:

The Comptroller's appointment to be by and with advice and consent of the Senate—concurred in 30 to 29, Expense of dies, plates, &c., to be paid by the banks *in advance*—concurred in.

Railroad bonds to be received at their current value—lost 30 to 30, and reconsideration lost, 30 to 30.

Railroad bonds at $8000 per mile—concurred in, 32 to 29.

Changing lowest limit of capital to $25000—lost.

Changing highest limit of capital to $1,000,000—lost.

Giving 5 days notice to redeem bills instead of 20—lost.

Giving 30 days to redeem instead of 90—carried.

Giving 5 per cent damages for non-redemption and no interest—carried.

Allowing 10 per cent interest till 1858—carried. The Senate proposed 1860, but the House refused to concur in this.

Also agreed to a new section submitting future alterations to the people.

The other amendments were immaterial.

A bill passed the House repealing sections 7, 8 and 9 of chapter 57 of the Revised Statutes.

The bill relating to paupers in Milwaukee County coming up, Mr. Cain moved to postpone it indefinitely. The motion was lost, but the bill was laid on the table, at the instance of the same member. W. H. W.

"New York for Scott."

The *Commercial* is greatly exercised at this announcement, and, like the man in the Deluge, tries to make out that the Legislative demonstration in favor of Winfield Scott, was "not much of a shower after all." It tells the story thus:

A few of the whig members of the Legislature called a caucus of the members, disguising the objects for which they called it, till the day of meeting. When they came together, the Silver Grey Whigs, seeing the trap that was to be sprung upon them, "shot the pit" in haste, leaving the Sewardites to have it all their own way. A resolution in favor of Scott for President, was introduced and carried, and the caucus broke up.

It is only necessary, in answer to the above, to give the official statement of the Secretary of the Whig Legislative Caucus, called out by similar misrepresentations at the East. Here it is:

WHIG LEGISLATIVE CAUCUS—A CARD.

Assembly Chamber, April 9, 1852.

Sir:—In relation to the resolution of Mr. Underwood, adopted at the Caucus of the Whig members of the Legislature, held in the Assembly Chamber, in the city of Albany, on Wednesday evening, April 7th, 1852, recommending Gen. Winfield Scott to the Whig National Convention, as their first choice for the Presidency, subject to the decision of such Convention, the Register of this morning says:—"We deny that there were more than thirty voices given in the affirmative, and we do not believe that a single absent member has authorized such declaration of concurrence."

As Secretary of that Caucus, I wish to say that I called the roll on that occasion; and that there were present and answered to their names at that time and place, eight members of the Senate and fifty-five members of the Assembly—total 63; that *seven* members of the Senate and *forty-three* members of the Assembly voted in the affirmative on said Resolution, the original list of which I have in my possession. I have, since said convention, seen, personally, eight members of the Assembly, who have authorized me to say they concur in sentiment with said Resolution; and I understand from reliable sources, that two other members of Assembly also concur in said Resolution, whom I have been unable to see.

In haste, truly yours,
H. P. HEDGES.

MILWAUKEE CITY BONDS.

The Common Council, at their meeting on Thursday last, directed the issue of $10,000 of City Loan Bonds, to be placed in the hands of the Treasurer, Mr. Lucas Seaver, for negotiation. Mr. Seaver, who leaves our city for the East to-day, will take these bonds with him and can hardly fail, in the present state of the money market, to dispose of them at par, if not at a premium. They certainly offer unusual inducements to Capitalists, having 10 years to run, and bearing an interest of 10 per cent. payable annually in New York.—Under the new Charter and the superior management of our present City Officers, the financial affairs of our city are certain to improve rapidly.—The outstanding claims against the City and several Wards under the old Charter will all be funded; the arrearages of taxes settled up; the books posted and balanced; order and system introduced in all matters of account; a rigid economy practised in the city expenditures, and a reduction gradually effected in the annual taxation. Under such circumstances the bonds of our City become very desirable securities, and as they bear a high rate of interest, which is certain to be paid punctually every year in the City of New York, we do not doubt that they can be readily exchanged for money.

Lake Shore Rail Road.

At a meeting of the stock holders of the Green Bay, Milwaukee and Chicago Rail Road Company, held at the U. S. Hotel in this city, the following named gentlemen were elected Directors, viz: Daniel H. Chandler, Rufus King, Thomas P. Williams, S. B. Davis, Edward Button, Levi Blossom, Charles K. Watkins, George H. Walker and Alanson Sweet.

At a subsequent meeting of the Board of Directors, Hon. Daniel H. Chandler was elected President, Levi Blossom Treasurer and C. R. Alton Secretary.

An exploring party left our city Saturday morning to make a cursory examination of the ground preparatory, to commencing a survey on Thursday next, under the direction of Mr. Alton.

The Free Democrat's Two Faces.—The editor of the *Free Democrat*, in reply to our article of last week, showing up his sudden change of front upon the Bank question, claims to be just as willing to take the Wisconsin Marine notes this year, as he was the last. No doubt of it.—He rather faintly insists, however, that there is no inconsistency, in other respects, between his position now and that avowed by him a year ago. The public are rather more disinterested judges of this fact than the *Free Democrat* can be. We have quoted its editorial comments, last year, upon the proceedings instituted against the Bank, and contrasted them with the sentiments and language which it holds now. *Then*, it puffed the Company, and denounced the State authorities for their attempted warfare upon it. Now, it decries and traduces the Company, and urges on the crusade against it! Last year its cry was down with the Governor and the Attorney General. This year, it is down with the Bank. Let it explain, if it can, this complete summerset.

Free Suffrage.—Our "democratic" Senate, on Thursday last, *killed* the bill to submit to the People the question of extending the right of suffrage to colored people. It had previously passed the Assembly by the strong vote of 42 Yeas to 13 Nays. In Senate, the enacting clause was struck out by the following vote:

Ayes—Messrs. Alban, Bowen, Bugh, Conkey, Dean, Huebschman, Reed, Sharpstein, Squires, Sterling, Wright—11.

Nays—Messrs. Bennett, Palmer, Pinckney, Prentice, Stewart, Wakely, West—7.

Yeas 2 Whigs and 9 Democrats—Nays 4 Whigs and 3 Democrats. What mere, skin-deep "democracy" that must be, which insists upon color as a qualification for suffrage!

Adjournment of the Legislature.

We presume that our Legislature adjourned to-day, tho' as the Madison Mail did not come thro' Saturday night, and the Telegraph West would not work, we could get no positive advices on the subject.

The Slow Coach.—The *Free Democrat* excuses its delay in publishing the proceedings of the Common Council on the ground that it took no report of its own, but relied upon the Clerk to furnish them and he did not do so. It comforts its readers, nevertheless, with the assurance that if "a slow coach, it is at least a sure one." Slow enough, certainly, but not particularly sure.

Bunsby Again.—The *Wisconsin* copies our paragraph about the "slow coach," and draws the sagacious conclusion therefrom that the harmony of the Whig Party is disturbed. This is as "fast" an opinion as one could reasonably expect from the "Lead Team."

For the Sentinel.

MORMONISM AND REPUBLICANISM.

AN ESSAY.

No sound man would be an apologist of Mormon idolatry (for it is of no use to style it religion.) Such a mass of superstition, i[illegible]nce, brutality and communism, almost [illegible] the individuals and subjecting them [illegible]credible degree of self-denial, to be [illegible]tically adopted by many thous[illegible]ands and to be strengthened only by missionaries and hardships, may be called the highest miracle in this miracle-less time. All may be said to be blamable in them, but their perseverance and their readiness for sacrifices. Nevertheless, they ought to be regarded as on equal footing with every other religious association; for it is not the question of law and politics whether a certain faith be objectionable, or worthy of praise; they are all of equal rights, as long as they are not *in fact* obnoxious to the principles of human society, or to those of the State and to its laws. Nobody can be held by law to attend church on holyday, or to be finer dressed, or prohibited from work, or from making merry, on such day, in any way according to his faith or conscience, provided the exercise of his rights be not obnoxious to those of others, who may, by majority, protect the quiet of their worship by interdicting by law, dancing, music, or shooting, or ten pins on such day. To be sure, the Catholic, or Lutheran emigrant, from the continent of Europe, Sunday being there a merry day and any thing but a puritan Sabbath, may feel oppressed by such restrictions and a free thinker may even deem this an infringement upon his religious liberty. To be sure, they have a right to ask for their relief at the ballot-box, or by petition, but they are *bound* to abide by the law, though *they* may deem it uncalled for and oppressive. On the same account, a Mormon convicted of polygamy in the *States* is liable to punishment; for his faith does not *impose* polygamy on him, only *permits* it. Where law forbids what faith permits, there is no excuse for acting contrary to law. Another case may be, where law imposes what faith forbids, (as eating pork to the Maccabeans,) or where faith imposes what law forbids (as attending to the holy mass for the Catholics during the reign of terror in France,) then, a *higher law* is written in our hearts that we shall obey God sooner than man, or, in philosophical terms, that the absolute truth is to be recurred to whenever the occasional formula, by which it was sought to be expressed at a certain time, has become uncomformable to its tenor; for the laws of religion, and conscience are eternal and not to be dispensed with, but human laws are temporal, imperfect and often made for fortuitous, or even exceptionable reasons.

But as for the *theory*, there is no reason why the Republic of the United States should be afraid to be subverted by it. It is too well founded to be endangered, tho' its principles were denied in the midst of its population, orally or by way of printing; it looks with indifference on such *talking*, but will not allow such *doing*. Tyrants may tremble before a spoken word, or a printed sheet; but this would not frighten freemen. Therefore we boldly affirm, should there be any one fool enough to recommend to us the Russian Autocracy as the best constitution, he might even petition for it at Washington, take the stump and start papers advocating it. Everybody is allowed to make a fool of himself, so long as he does not hurt his neighbours, or become a public nuisance. Therefore the law would not forbid him to do so, and the law would be even bound to protect him against mobs. But opposing the law *in fact*, by not abiding even by a most indifferent one, makes him liable to punishment.

Religious opinions are to be dealt with in the same way. The law punishes no man for being an Atheist; but he who would deem himself excused from telling the truth under oath, for the reason, that he does not believe, there is "a God to help him," would justly incur the penalty of perjury. A Mormon is not forbidden to prefer polygamy to monogamy, but he is *forbidden* to marry more than one wife, wherever common law prevails, or special statutes have provided for.

The Mormons on the Salt Lake, however, had a right to constitute a new State and then and there to make their own Statutes, as they liked it, there being no irrefragable rule why Statutes *must* be founded on the Common Law. Then they had a right to dispense with the Common Law proviso against polygamy. And supposing they were admitted already as a State, then there would be no power in Congress to interfere with their local legislation, as art. 1. and 10, of the amendments to the Constitution, clearly show. If the Mormons were a State already, their right to abolish the Common Law in this, or other matters must be undoubted.

To be sure, they are not yet a State and Congress, in admitting them, has a right to refuse its sanction to their Statue book whereupon it would be void. But the next Legislature, after the admission, would be entitled to amend the Statutes again in this way.

Another question is, whether Hon. Brigham Young, or Mr. Bernhisel, and their brothers in faith, are at the present time guilty of a misdemeanor by their polygamy; for if the Common Law be now in force at Utah, then they are bound to abide by the law, and by braving it become guilty of felony. The Mormons, however, will say that their own laws and customs are protected by the treaty of Guadalupe Hidalgo; for they had settled in this territory before it was given up by Mexico and so the treaty of Guadalupe Hidalgo *may* be construed to warrant them their former laws and their religious liberty as well as to the Mexicans, provided they be not contrary to the U. S. Constitution, which does not mingle at all with Common Law, or others. So it would appear the U. S. Government has by no means a right to interfere with the Mormon polygamy in their Utah settlements.

But for malicious misinterpretations, it would be of no use to waste time upon the long-ago settled question of polygamy. Polygamy is contrary to the liberty and rights of woman; it misleads man from his destination for living in family, as nature demands it; it is inconsistent with a sound, social life, and in conflict with the fundamental principles of a reasonable State. Christianity abolished polygamy 1400 years ago and amongst the blessings for secular life Christianity has brought to mankind, there is none greater than to have secured a free and worthier position in society to wives and women in general.

So much for the wickedness of polygamy. But this one general feeling gives us no further right than to interdict it in our State. True democracy (not locofocoism) forbids us to meddle with the affairs of other States. Most of us northern men deem slavery unreasonable, unjust and immoral; but it is generally understood that it is not our business to interfere with it. Many of the States will look upon the Maine Law as a tyranical oppression. But they are said to be pleased with it in Maine; never mind! The Mormons pretend to be pleased with their matrimonial institutes.—Let them be so! It is not our business to moralize mankind by law.

There is another objection against the admission of Utah as a State, raised by Senator Borland.—Their constitution is said not to be republican, so far as their Prophet is their autocrat in secular, as well as in religious concerns. The United States Constitution, however, Art. 11, Sec. 4 guarantees to every State a republican form of government. I am not very specially acquainted with the Mormon constitution, it being almost impossible to get at the truth while so many false reports are forged for the purpose of disfiguring the whole of this concern. To be sure, there cannot be such a Turkish autocracy in Utah, as some have represented it; otherwise there would have been a thousand times more complaints from the California passengers, who passed thro' Salt Lake city. But suppose the Mormons had chosen to obey to their Prophet in all concerns, secular as well as religious, I should think they had a right to do so, provided that they neither compelled any one by unlawful means to do like themselves, nor retained any one in this allegiance by way of force, or by abuse of Legislation. For they themselves have no right to renounce their natural and republican rights by irrevocable pledges; but they may choose to confer them upon their Prophet for such time, each one, as he pleases.

Therefore the Mormon Constitution would not be allowed to deprive the inhabitants of Utah, (to say nothing of United States citizens travelling through their territory) of those rights warranted to every body by the U. S. Constitution; such as the right of the people to be secure in their persons, houses, papers and effects against unreasonable searches and seizures; not to be held to answer for a capital crime unless on an indictment of a grand jury, nor to be deprived of life, liberty or property without due process of law; to enjoy the right to a public trial by an impartial jury; to be entitled to the privilege of habeas corpus &c. To be sure, no Congress would sanction any constitution where other as valuable rights should not be secured, as the liberty of the press, or of the religious sects, or of the free election of Governor and Legislature. But within these limits they may as well frame their constitution and laws to their satisfaction as the citizens of Wisconsin did, and should they be so devoted in their allegiance to Hon. Brigham Young, as to concede him an appointment for life time, or an unlimited veto, or any more privileges and attributes than republican Americans usually like to invest in their Governors and other officers—never mind! It would not answer for the Union to deny them admission on the sole ground that their constitution was such a one as other people would not like to frame for themselves.

The U. S. officers, who deserted their offices in the territory, claiming to have been driven away by threatening and even by force, have made some other charges against them; as for instance that Hon. Brigham Young, in a sermon, pretended to have seen Old Zach burning in the hell. Governor Young's visions and spirit rappings, to be sure, are of the same authority, shameful and sacrilegious imposture. But it is no matter of trouble whether a fool, or impostor deems President Taylor, or any of our deceased heroes, damned or saved; and to be sure there is no constitutional proviso, that any deceased President is to be believed by the people, saved to heaven. These charges betray a bad flavour, like suits of violated majesty at the time of Tiberius, Caligula and Nero.

A U. S. Judge certainly is to be supported and protected wherever and whenever the lightest default is made by individuals, or even states, refractory against his *judicial* functions; but if he chooses to take the stump, not being asked for, and he be told in a rather uncivil way, that he better mind his own business, there is no reason for leaving his duty unfulfilled and for agitating through the U. S. to send an army against the Mormons for re-assuring General Taylors salvation, or for securing an auditory to Judge Bockus speeches. To be sure the hero of a hundred battles does not need such measures for being kept in the true and loving memory of the people, or for vindicating his name from the nonsense of a mormon prophet.

It is a fact, that Mormonism has but little claims on the respect, or the sympathy of mankind; but everybody has a claim that justice be done to him. It is another fact, too, that the Mormons have been driven from their former settlements in a most unjust, illegal and cruel manner and that they sought their asylum, far off, across the Rocky mountains, for the reason that there, they might live as they liked, without further troubling others, or being further troubled by them. It would be a wise policy, as well as a just one, to let them alone there.

JUSTICE.

THE BLACK SWAN.

The Telegraph and the press, for some time past, have been busy in chronicling the musical triumphs of the Black Swan and in noting her progress Westward. Last week she sang, to crowded and delighted audiences, in Detroit, Chicago, Kenosha and Racine. *To-night* she sings at Gardiner's Hall in this city. She comes here heralded by a reputation which will of itself draw a full house. That those who attend will enjoy the entertainment will be readily inferred from the following notice of her Concert in Chicago, copied from the *Journal* of that city:

To say they were gratified is not enough. If expression of countenance and repeated applause—more than we have ever witnessed upon a similar occasion in this city, mean anything, they were surprised and delighted. Not, perhaps, with the artistic skill she manifested, but the wonderful power, sweetness and compass of her voice. It was like a flute, a clarion, an organ, and yet it was more—a splendid human voice.

Her style is simple and unaffected. She is guiltless of all the trickery of the professed and trained Vocalist; but sings as she feels it; as she thinks it should be sung, and though not skilled in the quibbles and nomenclature of "the art divine," we are satisfied she thinks right. With a complexion not Circassian, and a figure not altogether a model for sculptors, she has drawn together here an audience—has charmed them, and all with the magic of a voice.

New Orleans Election.—We have at length received the result of the election on the 21st ult:

Whig.

Mayor, A. D. Crossman,	4992.
Treasurer, W. H. Garland,	4680.
Controller, Ovide De Buys,	4958.
St. Commissioner, Jas. Jolles,	3651.
Surveyor, L. H. Pilie,	4673.

Opposition.

Mayor, John L. Lewis,	4877.
Treasurer, John Duncan,	4031.
Controller, John Calhoun,	4849.
St. Commissioner, Bernard Stehle,	3595.
Surveyor, Hugh Grant,	4109.
Treasurer, (Ind.) George Y. Bright,	1006.

Besides choosing all the general City Officers, the Whig, elect 7 out of the 12 Aldermen, and 21 out of the 27 Assistant Aldermen. The Whig papers of New Orleans consider the result as a great victory, inasmuch as the Whigs had to contend against both "Independent" and regular opposition tickets and candidates. The great contest was on Mayor. Gen. John L. Lewis was the Opposition and Independent candidate, but Mayor Crossman had 115 majority over him.

☞ The *Wisconsin* of Saturday, in its money article, thus puts itself on record in approval of Gov. Farwell's Veto. We invite our captious neighbor of the *Commercial* to make a note of it:

The passage of the Fox and Wisconsin River Improvement Bill in spite of the Governor's veto will only cost the state some million and a half of dollars, but political scheming always costs money and the commercial interests have to suffer where they stand in the way of office seekers.—Gov. Farwell's course in the matter must meet with the approbation of disinterested persons almost to a man.

Worth Thinking About.—The New York *Courier and Enquirer*, commenting upon the result of the late election in Connecticut, has the following:—

A great moral cause like that of Temperance, deriving all its dignity and worth from free moral action, cannot be dragged into the arena of politics, and thrust to and fro in the turmoil of contending factions, without disparagement and deep injury. Its presence in that arena would excite against it wider and bitterer hostilities than it has experienced, and would put into the hands of its enemies new weapons far more efficient than any that have ever before been within their reach.

Straws &c.—The New York *Evening Post* Barnburner, thus exults at the selection of two Anti-Cass Delegates at large, to represent New York "Democracy" in the Baltimore Convention:—

"Messrs. Seymour and Skinner, the two State Delegates elect, altho' both supporters of General Cass, in 1848, are now understood to be *opposed to his nomination in any contingency*. They will go for the selection of such a candidate as will keep the democracy of New York united. Their first choice is understood to be Wm. L. Marcy."

The Rush to California.—The Cincinnati *Gazette* of the 5th instant, says: Within the month which closed yesterday, between 3,100 and 3,200 persons—a portion of them Females—have shipped at this point on their way to the land of gold, exclusive of those who have passed here on steamers.

First Boat for Minnesota.—The steamer *Nominee* left Galena, on Monday last, for St Paul, with 150 Cabin and 100 Steerage passengers: 50 head of stock and 270 tons freight. Her arrival will be warmly welcomed by the Minnesotians, after their long winter.

Buffalo Female Academy.—We invite attention to the notice in our advertising columns, of this Educational Institute. It bears a high character for good management, and is easily accessible to all our Lake Towns.

From the New York Times.

RISKS OF RAILWAY TRAVEL.

Would you like the luxury of a new sensation? Take your stand six feet from a railroad track,—in the night, and await the passage of the Express train. There is no wind stirring. Clouds close in the light of the stars. The hum of life has ceased. Blackness and silence brood together upon the face of the earth. Afar off the listening ear catches a dawning roar. Half heard and half felt—it grows into more distinctness—partly revealed by the trembling of the solid earth and partly felt as a shapeless horror filling the air.—Every second swells its awful volume and deepens its terror. The earth now quakes under its tread—a blazing glare, as from the eyes of Hell, flashes livid horror into the surrounding air—and you see, crawling along in snaky track, with fiery head crouched close to the ground, and its long train swinging from side to side with a wavy motion—a gigantic and terror breathing monster, instinct with life and power, crushing the earth with its tread, and creating its whirlwind with its blasting breath, as it sweeps along. Is there anything in the world which impresses the mind with a profounder sense of resistless power—than that enormous mass, with its blazing eyes and smoky breath—running with the speed of a cannon ball, and startling the air and the earth with the overwhelming horror of its flight? What would the savage think—seeing it for the first time? Imagine such a flight across the country fifty years ago—unheralded by any rumor of its coming, revealing its existence by its presence and rushing suddenly into oblivion—as it now rushes into the darkness while you gaze upon the spot where it disappeared, and hear only the faint echo of its distant tread. What rumors of it would fill the world! What tales of its grandeur—of its speed and power—would startle the credulity of the remotest village gossip!

Yet this gigantic monster—which never fails even yet to impress us with the majesty and grandeur of its power—is one of our most familiar servants; he is simply the drudge upon whom we throw the hardest work of every day life. Grand and superhuman as he seems to the eye, we use him merely as a substitute for legs. We no longer walk or carry burdens from place to place. We have caught this all powerful, swift-footed monster—this omnipotent, gigantic centipede; we have laid down our iron track for him to run upon; and chaining his nose to its narrow rail, and guiding his course by an iron flange not an inch thick, we load him with the weight of mountains, pile hundreds of people upon his back, fasten tons upon tons of merchandize to his tail, and, thus laden, drive him, like a tamed tornado, thro' the length and breadth of the land. If we could climb to some great height, from which we could see at one glance the whole area of the State of New York, we should see it in every direction with the tracks marked out for these chained thunderbolts to run upon. At every hour and every minute, of the day and of the night, we should see them rushing from point to point, with the speed of the lightning, and crossing the direction of each others' tracks, like cannon balls upon a field of battle.

He must be a fool-hardy man, one would think, who should dream of riding such a monster. One might as well straddle a bomb-shell, or a Paixhan shot, for the sake of speed. Suppose some little stone should get wedged upon the track, or some misplaced switch should turn it off; or a pin, the size of your finger, should break; or some one of ten thousand trifling accidents should happen; what would become of the train and the lives of those who had entrusted themselves to its care? And yet, during the last twelve months, no less than eight millions, four hundred and forty-five thousand, nine hundred and ten persons rode upon the Railways of this State alone. And out of this vast number, less than one hundred lost their lives from Railroad accidents. The chance observer would say that this small proportion of casualties is even more astounding than the Railroad itself. And so, indeed, in many of its aspects, it is.

And yet, there can be no doubt that travelling by Railway is the "safest mode of travelling yet discovered;"—and that for the simple reason that it depends more completely than any other, upon fixed principles that can be understood, and upon agencies that can be controlled by the intellect of man. A horse will sometimes run away; he has a will of his own, and his freaks cannot always be foreseen. The locomotive has no will,—no passion,—no life, but what man gives, and can guide, check, control, or take away. Everything connected with a Railroad,—the track, the motive power, the wheels, the cars—every agency employed about it and everything on which its movements in any degree depend, can be distinctly understood and subjected to the full and complete control of the presiding intellect. The exact exercise of this entire mastery, is all that is necessary to render Railway travelling perfectly safe. And the fact that it is exercised with different degrees of fidelity upon different roads, is what makes one road safer, or less safe, than another.

Compare, for example, the railroad returns of different countries. In France a Railway accident is almost unknown. Not half a dozen have happened within memory. In the two years 1847 and 1848, "not a single Railway accident occurred in the whole of France." And why? Because everything in any way connected with Railways there, is subjected to the most faithful, vigilant and intelligent supervision of those best qualified to attend to it. The same degree of attention here, would secure the same result.

Compare the safety of travelling upon the English Railroads with that of travelling upon ours. In Great Britain, during the two years ending with 1848, the whole number of miles travelled by Railway passengers was 1,830,184,619; and the number of persons killed during the same time was 513. This shows that one person was killed for every 4,555,652 miles that were traveled. In New York last year the whole number of miles traveled was 247,833,040; and the number of persons killed was about 100,—which is one for every 2,478,380,— or very nearly twice as many as were killed in England, in proportion to the aggregate number of miles traversed by Railway. In either case the proportion of lives seems small, and so it is.—But the comparison shows that it is not so small as it might be made. More lives are lost here than in England, and more in England than in France.

GEN. SCOTT.

Mr. Editor:—In your paper you speak of Gen. Scott having been much in the North-West, and say that he is known to many of our old citizens here. I knew Gen. Scott at Rock Island in 1832, but I knew him better in the last war, as I was under his command at the storming of Fort George, where he led the advance in person and took the Fort. I can tell the people here, that there never was a braver soldier, or more high-minded man than Gen. Scott. He was always very kind to the soldier, and always did his duty. I saw General Scott again at Rock Island in 1832, when I was in Boovie's Rangers in the Black Hawk War, and he greeted me as an old companion in arms, and treated me very kindly. Some say he is overbearing, but as an old soldier who has served under him and known him for forty years, I say he is a gentleman, a patriot and a soldier, whose brilliant exploits have conferred imperishable glory on the American flag.

Yours,
DAVID JAMES.

The Fruit.—A few days ago, we published from the Cincinnati Gazette a statement furnished that paper by Mr. Ernst, a distinguished horticulturist residing near Cincinnati, to the effect that the plums, cherries, apples, &c., which the former cold weather had not killed, were destroyed by the recent cold spell. Nicholas Longworth, Esq., has furnished the Gazette with a very different statement in relation to the fruit in that vicinity, which we subjoin:

Fruit.—Messrs. Editors: Doctors will differ.—You say that you are informed by Mr. Ernst, that we shall have no fruit. Pears and apples will be abundant. I have many plum trees that have not lost a bud. We shall have some cherries. Peaches will be a rare article. Many trees will shed their accustomed blossoms, but the germ is dead.

Yours, N. LONGWORTH.

P. S. In the country we are told the grape vines are but little injured. In the city most of the leading buds are killed. What the side buds may do we have yet to learn.—*Louisville Jour.*

☞ A Note for upwards of $1100, was advertised in the *Journal*, day before yesterday, as having been stolen. Yesterday it came through the Post Office, in an envelope, addressed to the *Journal*, though unaccompanied by any explanation of its absence. Two facts are clearly demonstrated by the occurrence,—the beneficial effects of a conscience—and the beneficial effects of the advertising system. Some cash, however, that was stolen with it is kept still—showing that even conscience and the advertising system have limits.—*Albany Evening Journal.*

The Difference.—A year ago this day the good sloop "Hercules," Capt. H. B. Chamberlain, left this port for the south, freighted with lumber. To-day, sleighs heavily loaded, pass from this place on the ice direct to Burlington.—Hart & Rush's stages run daily, as usual, via Grand Isle. We have had some 130 days good sleighing, but it has a "kinder gin cout" now; and the lake will probably be free from ice before "dog-days."—*Plattsburgh New York Republican April 3d.*

Drowned in a Mineral Hole.—Thursday of last week, we learn that Mrs. Myers, who lives some distance below town, was drowned in a mineral hole, partly filled with water, into which it is supposed she had jumped purposely. She was discovered before she was dead, but before she could be extricated, life had become extinct.—*Galena Gazette.*

☞ Saxe, the poet and wit, editor of the Burlington Vt., Sentinel, has a way of getting off things peculiarly his own. Here is one predicated on the visit of Lola Montes to the Boston shools.

The young are taught to think and do,
By precept and example, too—
But, faith, the precept should be ample
When Lola Montes is the example!—

COMMERCIAL.

THE MARKETS.

Office of the Daily Sentinel, Milwaukee, April 19, 1852.

Dull market, on Saturday. The condition of the roads cuts off receipts—Prices without change. We hear of no transactions since our last. A lot of Mess Pork, No. 1 is on the market for which $15,00 is asked and $14,50 freely offered.

Detroit, April 14.—Market still dull and heavy. The prospect of the opening of Dunkirk Harbor will, we think, enliven matters a little. We noticed yesterday a vessel loaded with flour for Dunkirk, and we presume others will soon follow.

Flour rules at $4 48@3 30 to $4 for common to choice brands on board.

Wheat, 68@70c. on board. Corn, 46c. on board. Household articles scarce, and in demand at good rates.

Galena, April 10—Trade during the past week has been dull. The weather has been stormy. The roads are nearly impassable. The ice has not yet moved out of Lake Pepin, and consequently the up river trade has been light.

Mineral.—Mineral has advanced half a dollar per thousand. We quote at $24 50 for the best, and $25 to 25 50, delivered in town.

Wheat and flour are stationary.
Provisions—Pork is advancing.
Oats—Have advanced to 15a19c.
Barley—Steady 25c.
Corn—Has advanced to 25c, in the car, and 28c shelled with a prospect of raising still higher.

HOOFLAND'S GERMAN BITTERS.
THESE celebrated Bitters prepared by Dr. C. M. Jackson, 120 Arch-st, Philadelphia, are performing astonishing cures throughout the whole country. We can bear witness to their curative powers in the case of a friend of ours who had the Liver Complaint, and who had tried almost every other medicine, but without effect. After taking a few bottles of these Bitters he was entirely cured. To those who are similarly afflicted we recommend them to take the preparation, knowing that they will cure the disease spoken of, and many others to which 'flesh is heir to. There is a spurious article made in Philadelphia. The only place to get the genuine article is 120 Arch-st., Philadelphia, of Jackson, or his agents throughout the country.

The Life of the Flesh is the Blood.
WHEN that becomes impure, disease inevitably attacks the system. As a Purifyer of th Blood, the Graefenberg Sarsaparilla is most efficient. Its preparation is different from all others, the usual deleterious matter being entirely excluded from it. It is not a pleasant drink, but a *medicine*, and most highly concentrated, a small teaspoon full being a dose. It is also purely vegetable, and as an alterative medicine it may be relied on as being the best in market.
For sale with other Graefenberg Medicines, at the Co's Agency, 23 Wisconsin-st., and by all druggists throughout the State. P. C. HALE.

THE WORLD'S FAIR PREMIUM SAFES. DEPOT, Green Block, Water St., (Between Maiden Lane and Wall Street,) NEW YORK.
THE SUBSCRIBER PLACED HIS FIRE AND BURGLAR-Proof Iron Safe in competition with the whole world at the great Exhibition in London, for which an impartial jury awarded a medal.
The American Fair, held last fall at Castle Garden, also awarded to him a gold medal for the best Fire-Proof Safe, and he has never failed to obtain the highest premium when his Safe has been put in competition with others for that purpose. Certificates have been received from the following well-known mercantile houses, who have had their books, papers and money preserved in these superior Safes within the last thirty days, (and can, with many others, be seen at my store,) viz. Messrs. Stillwell & [illegible], and Mr. J. L. Watkins, in the Fulton Street fire; Messrs. Fisher & Robinson, and Messrs. John Lockwood & Co., in the great fire corner of Liberty and Nassau Streets, and Messrs. Proud & Bowman, in Jersey City.
I am the proprietor of HALL'S PATENT LOCK, which obtained a medal (in the name of Adams & Co., Boston) at the World's Exhibition, and is considered the best Lock for the price, ever invented, being proof against powder, and the Key is no larger than a cent, and can be made changeable.
I invite all purchasers to a close and careful investigation before purchasing, and decide for themselves, who makes the best Fire, Burglar and Damp-Proof Safe combined.

Important Announcement—Public Lands on the Central Railroad.

President Fillmore has issued his proclamation for the public sale of such portion of the lands within six miles of the Central Railroad and branches as remain to the U. S., at the following times and places, to wit:

At Chicago, commencing Monday, 6th of September next.
At Dixon, 20th September.
At Danville, 23d August.
At Vandalia, 2nd August.
At Palestine, 16th August.
At Shawneetown, 19th July.
At Kaskaskia, 5th July.

The lands offered for sale will consist of the odd numbers which remain to the U. S. Lands reserved for schools, military or other purposes, will be excluded from sale. Sales made will be subject to right of way, granted by act of Congress to the State for the Railroad and branches, not exceeding 100 feet on each side thereof. Each sale will be kept open for a time sufficient to admit of offering all the lands, but not exceeding two weeks; and applications to make private entries will not be received until after the close of the public sale.

Diagrams will be furnished to the respective district land offices by the Commissioner of the General Land Office, designating the lands to be offered for sale.

LARGE NEWSPAPER BUSINESS.—The New York *Tribune* entered upon its twelfth year, on Saturday the 10th inst. From a statement made in its issue of that day, it appears that the total receipts of the paper for January, February and March, of the present year, amounted to the large sum of $75,657,32. The *Tribune* comes out in a new dress, from the foundry of BRUCE & Co., and looks well. In his article in reference to the paper, its course and prospects, Mr. GREELY says:

"Our earnest and mature convictions accord to the Whig party the credit of best apprehending the wants of the Country and best responding thereto in the system of Public Policy which it advocates and upholds. We believe the measures which it distinctively supports are essential to the Nation's due development and steady prosperity—that protection to Home Industry, the Improvement of Rivers and Harbors, the maintenance of a sound and uniform Currency, are duties which the General Government cannot disown and neglect without serious detriment to the public weal. We believe the instincts of this party favor Peace, Industry, Thrift, and the rapid and beneficent Development of our Country's resources. We believe that of the two great parties the Whig is the more likely to be strong where God is reverenced and grogshops are scarce. So believing, we have always done what we could for its ascendancy, and expect to do while we live."

CARE FOR THE WINNEBAGOS.—Major Fridley, Agent, went up on the Nominee yesterday afternoon. He has been in Washington during a part of the winter, and arrived from St. Louis Saturday morning. Maj. F. takes up $45,000 in gold, and $17,758 in Treasury drafts, that sum being a portion of the annuity payable to the Winnebagos. It will be paid out at Long Prairie, Minnesota, about the 1st of May ensuing. Of this sum, but for Mr. F's representation, $10,000 would have been paid out on the Missouri river, to which place certain Winnebago Indians wandered, in violation of the contract made by the U. S. Government with them. As the matter now stands, the Winnebagoes will be compelled to return to the lands assigned them in order to obtain their annuity.

It is understood, that on the arrival of the news of the ratification of the Sioux Treaties, Major F. has authority to assemble the Winnebagos, and to treat with them for the tract West of the Mississippi which they now occupy—which tract is covered with a dense growth of pine timber—and exchange it for a prairie country, which the United States will acquire by the Sioux purchase. But more of this anon.—*Galena Gazette*, April 12.

QUICKEST TRIP YET.—A train on the Central road, last week, went from Detroit to Michigan City in six hours, including stopages, and passengers reached Chicago in less than thirteen hours. Quick traveling for this season of the year.—*Detroit Free Press*, 16th inst.

☞ The London left last evening for Dunkirk with a fair load of passengers.—*Ib.*

☞ The Pearl and Ploughboy came in yesterday from St. Clair and Chatham with good lests. Report ice stepped out.—*Ib.*

FULL.—The Troy and Southerner arived yesterday, together bringing about 400 passengers. Our Hotels and groceries were full—our bakers obliged to heat up their ovens, to bake bread for the hungry crowd. Our citizens, of course, threw open their houses to such as could not be accommodated at the Hotels. This morning four passenger cars crowded, left for Chicago;—*Toledo Blade* 15th inst.

SAD ACCIDENT.—The wife of Mr. Chas. Schwan, a respectable German residing within a few miles of Mayville, Dodge Co, was employed in the woods boiling sugar on Tuesday the 6th inst., while her husband was absent at Town Meeting. By some means her clothes caught fire, and being alone, she was most horribly burned—to such an extent that she survived only about twelve hours, suffering great pain and praying for death to release her.—*Fond du Lac Journal.*

OPENING OF NAVIGATION.—The steamer Peytona, has undergone thorough repairs, and is ready for the spring business. She made her first trip to Oshkosh yesterday, and will begin her regular trips to-day, to the north end of the Lake.—*Fond du Lac Journal*, 15th inst.

Milwaukee Insurance Agency. American Mutual Insurance Co. OF AMSTERDAM, N. Y.
CAPITAL......$200,000.
THIS Company insures property in two classes, designated as Farmers' Department and Merchants' Department, the accounts of which are kept in separate books, there being no connection, other than that the business of each is under the supervision of the same Board of Directors, thus giving the public the advantage of two Companies, with the expense of one office.
Losses in one class can in no way affect the funds of the other, as the Charter provides that each class shall pay its own losses.
FARMERS' DEPARTMENT is confined to farmers' buildings, detached dwellings, and their contents.
MERCHANTS' DEPARTMENT will embrace property of more hazardous description.

EMPIRE INSURANCE COMPANY, Union Springs, N. Y.
CAPITAL......$100,000.
THE Directors of the Empire Insurance Company feel confident that the plan of Insurance adopted by them will meet with a hearty response from a discerning public. Our Charter and By-Laws require that the applications received shall be divided into two or more classes. Dwelling Houses, and property of similar hazard, only, can be insured in the First Class, excluding Taverns, Work-shops, School-houses, Seminaries, Churches, and other kinds of hazardous property, usually taken in the so-called "Farmers' Companies," or "Farmers' Departments." This will render the EMPIRE emphatically a "FARMERS' COMPANY."
They submit for the judgment of their fellow citizens the following summary of their plan of operations:
1. Policies will be divided into distinct Classes, the funds of each class being kept separate, and each paying its own losses. The notes given in one Class are not liable for losses happening in the other.
2. Any applicant may, at his option, pay a definite sum in full for his insurance, in lieu of giving his note.
3. The First Class to consist of dwelling houses and other farm buildings and personal property therein. Not more than two-thirds of the value of any building to be insured; but the personal property therein may be insured to its cash value.
4. The Second Class to consist of Churches, School-houses, Seminary buildings, Work-shops, Taverns, Stores, Mills propelled by water power, &c., and personal property therein.
5. Not more than $3000 will be taken in one risk.
6. Steam Mills of all kinds, Distilleries, Cotton and Woolen Factories, Powder and Oil Mills, Furnaces, Machine Shops, and other extra hazardous property will not be taken in this company.
7. This Company will hold itself responsible for the correctness of all surveys and other official acts of its authorized agents, thus ending all cavil as to the technical correctness of surveys, and the consequent liability of the Company.
8. Any policy-holder may at pleasure withdraw from the Company by paying his share of the losses up to the time of such withdrawal.
9. This Company will adjust all claims with promptness and liberality, and if at any time a difference shall arise between the parties, the same may be settled by a mutual reference in the county where the loss shall have occurred.
10. Additional Stoves may be set up, or moved from one room to another, without giving notice to the Company; also, such repairs as do not increase the hazard of the property, need not be notified.
11. This Company will pay losses caused by lightning, whether the buildings are burned or otherwise damaged.
12. Should any more money be collected than sufficient to keep the company in a sound condition, it will be returned to the policy holders in proportion as each shall have paid in.
The Directors, in soliciting patronage for the *Empire Insurance Company*, do so in the firm conviction that the plan will be found as CHEAP and SAFE as any company can be made. In arranging their Rates of Hazard, and the kinds of property to be insured in each class, they have sought to secure sufficient cash premiums to meet all losses; laying by the small notes taken as a Reserve Fund, which shall render the Company perfectly safe against all contingencies.
For a more definite and full view of their plan of operations, they respectfully invite an examination of their Rates of Hazard and Classification of Property to be insured.

NEW YORK MUTUAL BENEFIT ASSOCIATION, Union Springs, N. Y.
THIS Association is formed for the mutual relief of its members in case of sickness or accident. A careful examination of its principles, and its benevolent objects, is respectfully solicited. The character and standing of the Board of Directors is a guaranty that the money received will be safely preserved, and faithfully devoted to the objects proposed. The progress of HEALTH INSURANCE, within the past few years, in localities where its principles have been understood, and its beneficent results practically seen and felt, is unparalleled.
Men are literally binding themselves together to bear one another's burdens. No kind of Insurance can be so generally useful as that of Health; for most people are dependent upon it as the capital which enables them to procure the means of livelihood. Hence, when by disease or accident this is gone, all is gone; and either an unpleasant dependence on friends, or poverty and pauperism, is the consequence. It is not presumed that accident or the ravages of disease can be prevented; but by a wise forethought, a fountain may be provided, which, when the hand of affliction does come, will soften its asperities, and secure a comfortable support for yourself or family.
Conditions of Membership.
A CERTIFICATE OF MEMBERSHIP will be forwarded on payment of $1,50 Admission Fee, and the first annual deposit mentioned below. Each member will be entitled to a Weekly Benefit during the time disabled by sickness or accident from attending to his ordinary business or occupation. NEW GUIDE, FOR THE OVERLAND ROUTE TO CALIFORNIA.
THIS book is compiled from notes made on the journey for the express purpose of furnishing a correct and reliable Guide Book to the over-land emigrant. The want of such a work has been severely felt by all who have crossed the plains. Much suffering and loss of teams have been occasioned, for want of a knowledge of the distances from grass to grass, and from water to water, and for proper directions to find good camping places. This book contains advice upon all these points in full also as to the best roads and short cuts, by following which, much travel and labor may be saved.
The following is an extract from a letter written by Mr. J. P. Welsh, of Milwaukee, who made the overland trip in 1851. He took with him a copy of this work and says:
"In regard to the 'guide' you furnished me, it has proved very accurate, and been mainly depended upon, though we had Mormon and other guides, some quite minute and extensive. Even some persons, who had once crossed, asked for copies of part. For Sale by S. CHAPMAN, East Water St. and B. B. BIRD, Wisconsin St. April 2-d&w

G. GRÆSSLE'S
PRESSED, FIRE-PROOF TILING.

CERTIFICATES OF RECOMMENDATION.

BY the present, I attest my entire satisfaction with the roof of my house, covered with the pressed, fire-proof Tile, invented by Mr. Graessle; having found them perfectly secure during snow-storms, rains, wind and intense cold. I hereby take occasion to recommend said roof covering to every house-builder, inviting them to satisfy themselves by occular inspection of the excellent quality of the same.

ENNO MEYER,
Druggist, 374 W. Water-st, 2nd ward.
Milwaukee, Feb. 3, 1852.

The above I found true in every respect, as to the roof of my house, covered with the same tile, invented by Mr. Graessle. AUGUST KRUG,
Brewer, Chestnut-st., 2nd ward.

The undersigned, having carefully examined the pressed rooting Tiles, invented by Mr. Graessle, have found them perfectly answering the purpose intended. Their practical and sagacious construction recommend this kind of Tile, not only as a fire proof and perfectly water-proof covering, but above all for its durability. The ridges and channels not only exclude the entering of snow or rain-water, but, by their firm and precise joining of one into the other, they give to the single Tile as well as to the whole covering an absolutely moveable position and an intimate connection. Besides this, Mr. Graessle's method of burning the Tiles, deprives them of the injurious tendency to absorb water, making them in this way durable; and joining to the above another virtue, viz. that of dispensing with repairs. The undersigned therefore consider ourselves fully justified in recommending to the building community the above roofing Tile as an excellent and valuable material.

OTTO SCHWARTZ, } Architects
VICTOR SCHULTE, } & Builders.
Milwaukee, Feb. 5, 1852.

To G. Graessle—I have examined the Roofing Tile made by you, and have no hesitation in recommending them to general use, and particularly as a fire-proof roof.

GRIST MILLS.
THE subscribers, thankful for past favors, beg leave to announce that they have recently added the Foundry business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any, other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
DOUBLE OVEN COOKING STOVE,
(Which received the First Premium at the State Fair, lately held at Janesville,)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both overs can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur,"
from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the Cash System (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. we invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.

IMPORTANT TO CONTRACTORS.
PLANK ROAD LETTING.

PROPOSALS will be received by the undersigned for the graduation, superstructure and bridging of the Glasgow and Huntsville Plank Road.

For the information of non-resident contractors, it is proper to state that this road is intended to connect the city of Glasgow, on the Missouri River, with the town of Huntsville, in Randolph Co., Mo., and is about twenty-eight miles in length. The country over which it passes abounds with suitable timber, and is in other respects favorable to the cheap construction of plank roads. There are, however, a few streams which will require bridges of considerable extent.

The time for the completion of the road has not yet been fixed, and though it is desirable to complete the road as soon as possible, yet sufficient time will be allowed contractors. Contractors may rely upon promptness in payments, as the means of the company are ample.

Those who wish to examine the route will receive all necessary information from Maj. R. Walker, the Engineer.

Bids will be received until the first of June next, when it is proposed to assign the work to the bidder or bidders whose proposals may be approved as most favorable to the company. Plans of the work will be ready for inspection first of April.

For the encouragement of contracting companies, it is proper to state that there are two other plank roads in contemplation in the vicinity, both of which will no doubt be constructed.

Communications are required in duplicate; one copy to be addressed to the undersigned at Huntsville, the other to F. A. Savage, Esq., Secretary of the Company at Glasgow, Glasgow, Mo., Feb. 10, 1852.

SPINAL COMPLAINTS, STIFF JOINTS, STRAINS, BRUISES, CUTS, WOUNDS, FROST BITES, CHOLERA MORBUS, DYSENTERY, TIC DOLOREUX, and all other complaints where there is severe pains, RADWAY'S READY RELIEF will instantly stop pain, and quickly cure the disease.

THE HUMAN FRAME
Is the most perfect masterpiece of mechanism in the universe. Every artery, muscle, ligament and bone, exhibits in its formation the wisdom of the Deity. Every joint and sinew works harmoniously with each other, and upon the natural performance of every function depends the healthful action of the whole.

PAIN
Disorganizes the whole system, it prostrate the nerves, it relaxes the muscles, it weakens the joints, it interferes with the functions of every organ, it checks the free and healthy circulation of the blood, it paralizes the absorbents, and renders them unable to take up and replete the wasted form with sound material. From the very moment that this beautiful masterpiece of God becomes afflicted with pain, the influence is experienced throughout the whole system, no matter in what particular locality the pain may originate; whether in the Head, the Feet, the Back, the Knee Joints, the Elbows, the Teeth, the Gums, or the Stomach; whether it arises from internal derangement, or is the result of external injuries, still the pain exercises its influence throughout every portion of the human system.—Not a nerve or a muscle escapes its prostrating influence.

INSTANT RELIEF FROM PAIN
Is the great desideratum of every individual who suffers its tortures, no matter how light or severe its paroxysms may be. No one can feel happy while suffering its torments.

RADWAY'S READY RELIEF
In a few seconds
WILL STOP THE MOST DISTRESSING PAINS.

Its effects are like electricity; it arrests the most distressing pangs in a few seconds, its soothing, neutralizing and healthful influences thrill through every minute cell, membrane, and establishes the secretion of every gland in the system, subduing the most excruciating paroxysm of pain, and imparting strength and vitality to every organ.

NEURALGIA.
PAIN STOPPED INSTANTLY.

Radway's Ready Relief possesses an almost miraculous influence over the sharp darting pangs of pain of this cruel complaint. In a few minutes the pain-stricken sufferer experiences the delightful sensations of departing pain. It has cured thousands of cases in the city of New York, where many of them had been brought almost to death's door. The effects of the Ready Relief is to stop the pain immediately, to strengthen the nervous system, and supply the nerves with nervous energy and vitality, the loss of which is the chief cause of nervous pains.

DANGEROUS PRACTICE.
The use of Morphine, Strychnine, Aconitine, Belladonna Arnica, and other poisons are not only dangerous but cruel. The effect of these poisons is not to cure the disease, or to remove from the system the pains, *but to deaden the nerves, to weaken and stop the nervous energy, to paralyze the functions of the nervous system, and to destroy sensation.*

If this practice is continued for any length of time, the patient will not only waste away, but the brain will become paralyzed, and the intellect destroyed.

RADWAY'S READY RELIEF
IS FREE FROM MORPHINE,
And all other dangerous and narcotic influence. To the weak and paralyzed nervous system it imparts life instead of death, and the pain is stopped by the healthy influence which Radway's Ready Relief imparts to the nerves, instead of the lifeless, sleepy and paralyzing effect which Morphine, and all other preparations containing this poison, produces on the system.

SICK HEADACHE.
Radway's Ready Relief will stop the most distressing pains in a few minutes, and prevent renewed attacks. It will cleanse and sweeten the stomach, and neutralize the poisonous acids of the system.

ALL BOWEL COMPLAINTS,
Diarrhoea, Dysentery,
Bloody Flux, Cholera Morbus,
Painful Discharges,
It relieves the most severe pains in a few minutes—checks the most dangerous discharges, and
SPEEDILY REMOVES THE CAUSE.

RHEUMATISM.
PAINS RELIEVED IN FIVE MINUTES.
Radway's Ready Relief will stop the severe and excruciating pains of Rheumatism almost instantly. Persons are living in this city who, for months, were confined to their beds by Rheumatic pains, whose bones were unbound from top to toe, whose joints were distorted with painful swellings, that were relieved from all pain in 15 minutes by the use of Radway's Ready Relief. This is truth, and thousands in the city of New York, and hundreds of thousands in the United States, can answer for the truth of this assertion—we need no certificates of Cures—we publish no long list of names to prove the efficacy of Radway's Ready Relief, for the Citizens of almost every town in the Union, for the last four years, have tested it for themselves.

CHILL FEVER.
CHILLS STOPPED IN A FEW MINUTES—PAIN RELIEVED INSTANTLY.
Radway's Ready Relief acts like a charm in all cases of Chills and Fever. It breaks the chills immediately—warms up and invigorates with health and strength every organ and secretion of the system.

PAINS OF ALL KINDS.
Whenever you feel pain, apply Radway's Ready Relief—it is sure to relieve you in a few minutes. If you have pains in the Stomach, Intestines, in the Liver, Kidney's, Bowels, Joints, Bones, Radway's Ready Relief, taken either internally or applied externally, will in a few minutes stop pain and quickly remove its cause.

BEAUTY.
Complexion richly tinted with the bloom of health,
With skin as pure and fair as Parian marble,—
Soft and sweet as the fragrant rose—
Teeth as sound and white as alabaster,
Breath of sweetest fragrance, and lips of coral tint,
With flowing ringlets and glossy locks,
Luxuriant tresses dancing gracefully o'er the swan like neck
No dark repulsive spots to mar the pleasing picture,
Or to cast dull shadows o'er beauty's master piece.

RADWAYS MEDICATED SOAP.
Composed of the most delicious, rare and fragrant gums,
Of extracts, oils, and costly essences—
Of flowers, roots, trees, and oriental plants,
Possessing wondrous virtues o'er skin diseases.

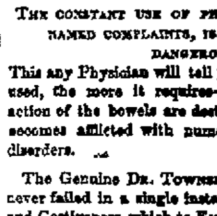

TO THE COMPLEXION IT IMPARTS BEAUTY.
By cleansing the skin from all eruptive matter,
Makes clean the pores, gives action to the capillaries,
By which all poisonous humors are ejected,—
And a healthy action to the skin restored,
To the teeth it gives whiteness and prevents decay,
It makes the skin soft, sweet and smooth,
Transforms the most repulsive and disfigured visage,—
To a clear and beautiful complexion.

RADWAY'S CIRCASSIAN BALM.
Imparts nutriment to the hair,—
Makes it stong, glossy, rich and luxuriant,
Cleanses the scalp from dandruff,—gives action to the bulbs,
Fastens the hair upon the scalp, and forces it to grow—
Like guano to a barren soil, it makes it rich and productive,—
To dress the hair, make it smooth and glossy,—
Strong and beautiful, &c.
Radway's Circassian Balm is the "ne plusultra."

READ AND BE CONVINCED.
[From the Boston Bee.]

The Editor said, Dec. 3d: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY,
One of the best literary papers published, said, August 25
"Dr. Hoofland's German Bitters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find those Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

The Daily Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gazette says:—"Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says:—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 24, says:—"A Medicine"—We speak knowingly of Dr. Hofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence."

The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.

"The certificates are copied verbatim." The proprietor of the Genuine Perry Davis' Pain Killer will prosecute any person, engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud."
